

HAMINA LNG OY – BINDING CAPACITY BOOKING PROCESS OPENED FOR GAS YEARS 2021 - 2022

Capacity booking process will run from 11th of November 2020 until 11th of December 2020

CAPACITY BOOKING PROCESS (“CBP”)

The CBP will be used to book capacity at Hamina LNG terminal for gas years 2021 and 2022.

The CBP will be a confidential procedure and will be conducted as defined in the approved Terminal rules of Hamina LNG Terminal (Version 2.0 dated 30th of October 2020): [Hamina LNG Terminal rules 2.0](#).

The CBP will run from 11th of November 2020 till 11th of December 2020.

Following the CBP, the capacity allocation process will be finalized as defined in chapter 5.11 of the Terminal rules.

As a result of the CBP and the capacity allocation, mutually binding terminal services contracts are expected to be signed with successful applicants by 3rd of February 2021.

The Terminal capacities and services defined in the Terminal rules are expected to be available for the market participants as follows:

Services available from 1st of April* 2021 and beyond:

- 5.1 LNG storage services
- 5.2 LNG Vessel unloading services
- 5.3 LNG Vessel loading services
- 5.4 LNG Bunkering services
- 5.5 LNG Truck loading services
- 5.7 LP Injection services into the DSO network
- 5.9 Standby emergency injection service into the DSO network (LP)

*The availability of the services is subject to final Commercial Operation Date and will be confirmed prior the signing of the TSC

Services available from 1st of October 2021 and beyond:

- 5.6 HP Injection services into the TSO network
- 5.8 Standby emergency injection service into the TSO network (HP)
