

RELEASE

23 August 2021

## **COMMERCIAL COMMISSIONING OF THE LNG TERMINAL IN HAMINA WILL BE POSTPONED**

The commercial commissioning of the LNG terminal in Hamina will be postponed from the previously informed 1.10.2021. Consequently, terminal services cannot be provided to the market from the beginning of Gas Year 2022 in accordance with the earlier schedule. Market participants will be informed of the specific time of commercial commissioning of the Hamina LNG terminal once a new time schedule is confirmed. The new schedule is still being specified and the estimated duration and impact of the delay will be made public to the customers and other market participants upon more detailed information being available.

### Additional information:
