

HAMINA LNG OY – FREE CAPACITY ANNOUNCEMENT

Hamina LNG Oy's Open Season 2022 first application period and allocation has been concluded. The 4 800 MWh/d HP injection capacity (transmission network) has been fully booked for the upcoming gas year, but there is still storage capacity and fixed truck loading capacity left. The remaining free storage capacity for the upcoming gas year is 12 000 m³, which can be booked by following the procedure below. If you are interested in HP injection capacity, please contact us directly at info@haminalng.fi, so that we can share your contact information with terminal users that may be willing to sell or lease a share of their allocated HP capacity.

Capacity booking procedure for free storage capacity and fixed truck loading capacity:

- 1) To begin the application process, send the following documents to Hamina LNG's email info@haminalng.fi with the subject "Hamina LNG application documents"
